

SUMIT SHEJOLE

Aspiring Full-Stack Developer & Software Engineer

+91-8827503016 | shejolesumesh@gmail.com | Indore, MP | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

First-year B.Tech (CS & Business Systems) student at IET DAVV specializing in **full-stack web development** and 3D web experiences. Shipped 2 production-grade applications using React.js, Firebase, and Three.js. Actively solving DSA on LeetCode. Seeking internship opportunities to contribute to scalable, real-world software products.

EDUCATION

Bachelor of Technology — Computer Science and Business Systems

IET DAVV, Indore | Aug 2025 – May 2029 (Expected) | **SGPA: 7.93 / 10.0** (Sem 1)

- Coursework: Data Structures & Algorithms, Operating Systems, DBMS, OOP, Computer Networks

TECHNICAL SKILLS

Languages:	JavaScript (Proficient), C++ (Intermediate), Python (Intermediate), C
Web & Frontend:	React.js, HTML5, CSS3, Three.js, WebGL, Responsive Design
Backend & DB:	Django, REST API concepts, Firebase Firestore, MongoDB, SQL
Cloud & Tools:	AWS (learning), Firebase Hosting, GitHub Pages, GitHub Actions, Git, VS Code
CS Fundamentals:	DSA, OOP, Operating Systems, System Design, Computer Networks

PROJECTS

3D Interactive Developer Portfolio

Three.js · WebGL · JavaScript · HTML5 · CSS3 | [Live Demo](#) [GitHub](#)

- Engineered a browser-based 3D portfolio in Three.js/WebGL achieving smooth 60fps animations with custom geometry, dynamic lighting, and texture mapping — no external 3D engine used.
- Built a modular scene management system with lazy-loaded assets, improving load performance; deployed via GitHub Pages with CI/CD through GitHub Actions at zero hosting cost.

Coding Protocol — Internship Application Management Platform

HTML5 · CSS3 · JavaScript · Firebase (Auth, Firestore, Hosting) | [Live Demo](#) [GitHub](#)

- Built a production-ready full-stack platform with role-based portals for students and admins — solving a real workflow problem for internship application tracking and status management.
- Integrated Firebase Auth (role-based access), Firestore (real-time DB), and Firebase Hosting — enabling live status updates without page refresh; 0 downtime since deployment.

CODING PROFILES & PROBLEM SOLVING

LeetCode — [sumit_shejole](#)

- Actively solving DSA problems focused on Arrays, Strings, Hashing, and Recursion in C++ and JavaScript to build competitive programming and interview readiness.

ACHIEVEMENTS

- Shipped 2 live, globally accessible web applications as a first-year student — demonstrating end-to-end product development beyond classroom curriculum.
- Achieved SGPA 7.93/10 in Semester 1 while independently managing two production application deployments.
- Built a Three.js/WebGL 3D graphics project — a rare specialization among first-year engineering students in India.
- Currently pursuing AWS Cloud Practitioner Certification (expected: 2025).
